

## **System Manual**

### **Minimum Hardware and Software:**

Mobile Device with the following:

#### **Operating System:**

- Android Operating System Marshmallow (6.0)+

#### **Hardware:**

- Processor with 2 GHZ or higher
- 300 MB of open storage
- 2 GB of RAM
- Internet connection (high-speed)
- Touch screen interface
- Resolution of 1920 X 1080 or higher
- Camera (recommended)

### **Installation Guide:**

1. Log on to the Android Play Store
2. Search for Paw Net
3. After it is installed click on the Paw Net logo on your phone's home screen
4. The application will be launched
5. Start adopting animals!

### **Error Troubleshooting:**

#### **Invalid Input:**

- When creating a profile and editing profiles ensure to enter information into all text boxes or else submitting will fail.
- When adding images for an animal ensure they are not too large in storage
