

# User Manual

## Paw net

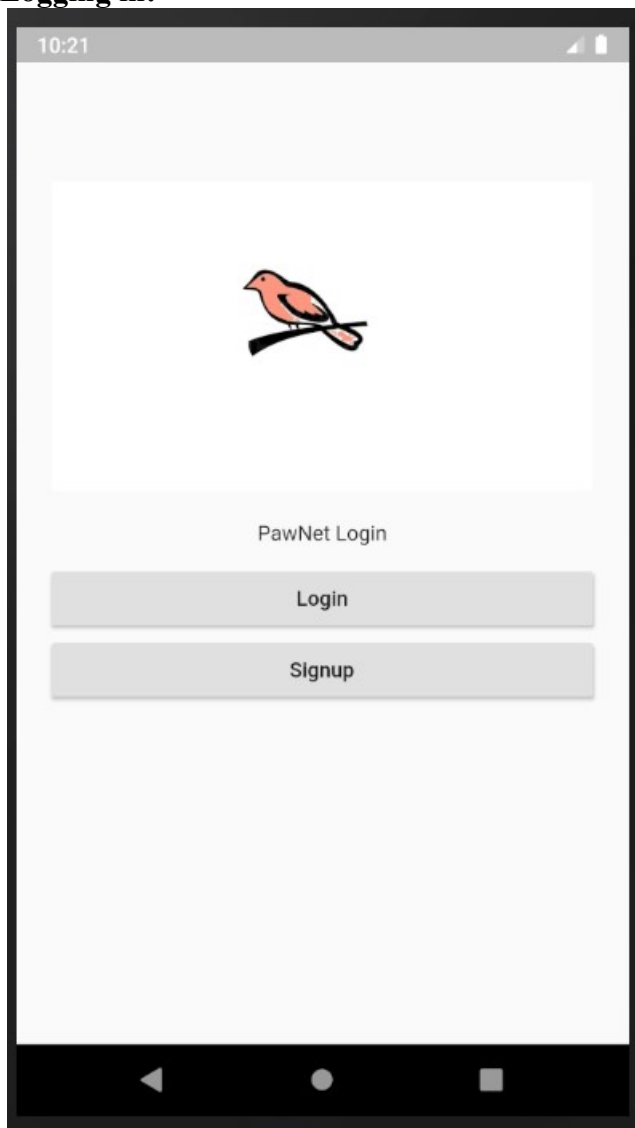

### How to start the system

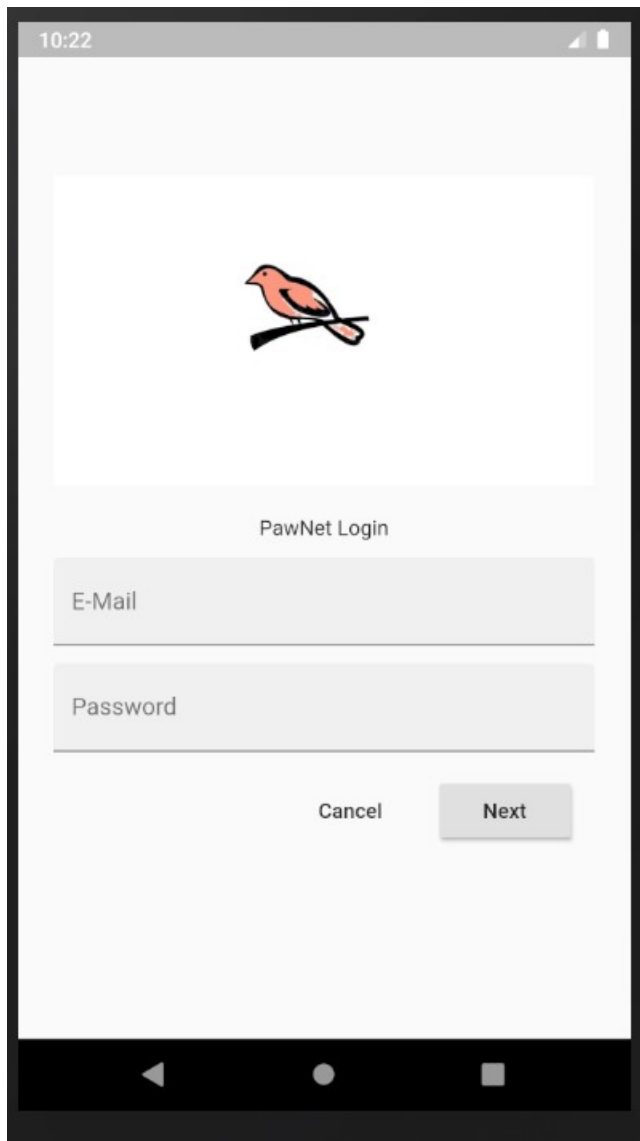

To start the application, find the application with the Pawnet logo on your phone and click it.

### Usage:

The application can be used by people wanting to adopt pets as well as by people who want to put their pets up for adoption without going through the hassles of going through a particular agency.

### Logging in:

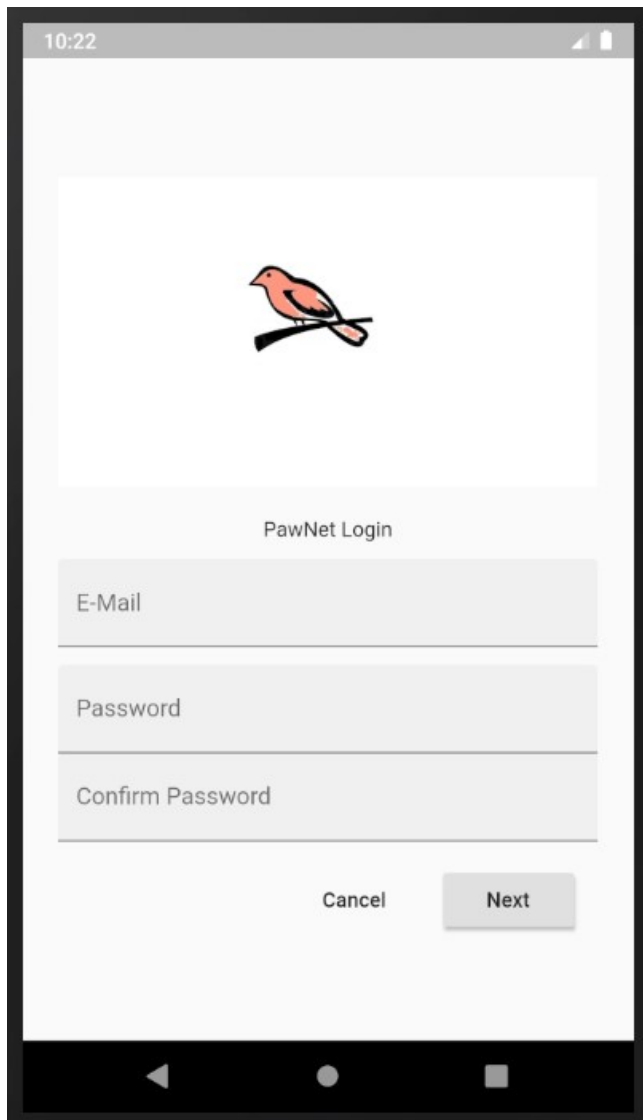

Sample inputs:

Email: [abc@email.com](mailto:abc@email.com)

Password : 123456

Possible Outputs :

If the email address and password are correct, you will be logged into the application. If they are found to be incorrect the application will prompt which values were wrong.

A screenshot of a mobile application's login screen. At the top, a status bar shows the time 10:22 and battery level. Below is a header area with a logo of a red bird on a branch. The title "PawNet Login" is centered. There are three input fields: "E-Mail", "Password", and "Confirm Password". At the bottom, there are two buttons: "Cancel" and "Next". The screen is framed by a black border, and the bottom of the screen shows a black navigation bar with three white icons: a back arrow, a circle, and a square.

Sample inputs:

Email: [abc@email.com](mailto:abc@email.com)

Password : 123456

Confirm Password : 123456

Possible Outputs :

If the email is found to be on our database, you will not be able to sign up.

But if all the values are correct a new account will be created with us and you will be able to log into the application.

To log in to the application, if you already have an existing account on PawNet, just select log in on this screen. If you do not have an account registered with us, click on the sign-up page and sign up using your email address.

**Home Page:**

10:34

Profile

Home

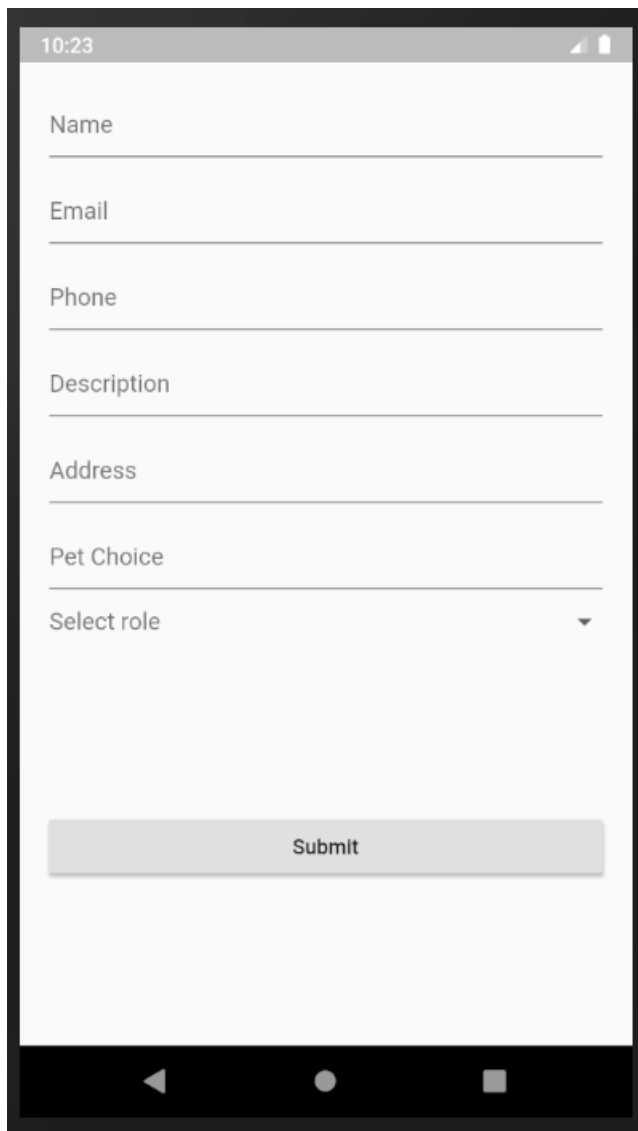

Messages

The home page of the application will load once you have logged into the application through signing up or logging in. The home page will look like the one above, a basic swiping interface in the middle where we can see the pet profile cards. Swipe right on these cards if you like the pet and swipe left if you do not wish to adopt the pet. Click on each card to pull up more information about each of these pets like their behavior age and breed. There are buttons under the card. Tap on the left button to dislike the card and tap on the right button to like the card. Click the button on the bottom left to access the edit profile screen and click the button on the bottom right to access the messaging screen.

### **Edit Profile Screen:**

The screenshot displays the 'Edit Profile Screen' of a mobile application. At the top, a status bar shows the time as 10:23 and battery level. The form consists of several input fields: 'Name', 'Email', 'Phone', 'Description', 'Address', 'Pet Choice', and a dropdown menu labeled 'Select role'. A 'Submit' button is positioned at the bottom of the form. The screen is framed by a black border, and the bottom navigation bar is visible.

Name Adopter

Email abc@email.com

Phone 215-555-7689

Description 24 Year old looking for a pet

Address 123 Lane St, Philadelphia

Pet Choice Dog

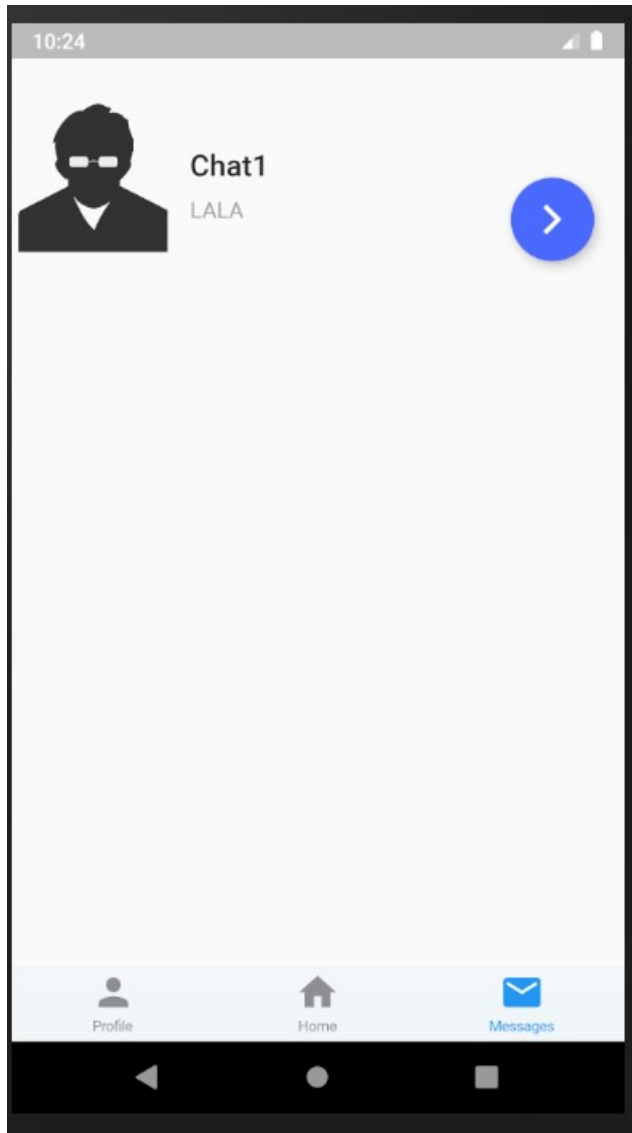

Select role ▼

Submit

If all the values inputted are valid the application will update your values automatically, if an invalid value is found, the application will prompt where the wrong value was entered.

To edit your profile information, fill in the information in the text boxes here which will be shown to other adopters and adoptees. To edit your information, click on each text box and enter your information. After entering your information hit submit to save your updated information. To go back to your home page, use the back button on the bottom of your phone

**Messaging Screens:**

To message the pets that you have matched with, swipe right on the main screen to access the messaging screen or tap the messages button at the bottom left. Once here, click on the person you would like to talk to, and you will be shown a different screen where you can directly talk to the person from within the application. To send a message to the person of interest, type it in the text box and hit the button on the end of it to send it. In order to go to the home page click the home button on the bottom bar whereas to go to the profile section click the profile button at the bottom left.
